MORE THAN A
DISTRIBUTOR

WHEN THE DESIGN MATTERS, PEI-GENESIS DELIVERS

Our Engineered Solutions Group (ESG) offers expert engineering design services, taking your application requirements from concept to drawing to prototype to production. Our team is leveraged by world-class brands and specializes in custom, quick-turn, application-driven harsh environment interconnect and cable solutions.

Contact us to get your solution!

\$100 MILLION

of connector and component inventory.
By building to order, we bring the full range of
our suppliers' portfolios within your reach.

48 HOUR LEAD TIMES

PEI-Genesis is the world's fast assembler of
connectors, giving our customers access to our
products in the matter of days.*

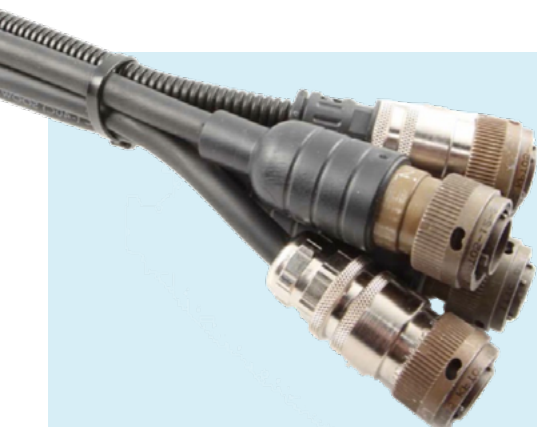

* If we have inventory of all the needed components, we can assemble
and ship products in as little as 48 hours.

75+ YEARS OF EXPERTISE

PEI-Genesis connector experts have the experience and
knowledge that your projects will benefit from.

5,000+ ACCESSORY PART NUMBERS IN STOCK

Complete your interconnect solution with a full
range of connector accessories.

CABLE ASSEMBLIES

PUT YOUR CABLE DESIGN IN THE HANDS
OF THE CONNECTOR EXPERTS

PEI-Genesis offers multiple sources for your cable design and assembly needs.
By engaging with you early in the design process, our team of experts can design
custom cables assemblies from our selection of connector products.

YOUR INTERCONNECT TRUSTED ADVISORS

As an authorized distributor for industry-leading brands, PEI-Genesis is your global partner for a range of interconnect and cables solutions for harsh environments.

TESTCO

A PEI-Genesis Company

Testco, a PEI-Genesis company, focuses on electromechanical, circuit protection, and sensor components to serve a broad range of customers' needs for IP&E product solutions. Serving technology companies worldwide for over 40 years, Testco offers creative supply chain solutions to meet customer requirements.

KEY MARKET TECHNOLOGIES

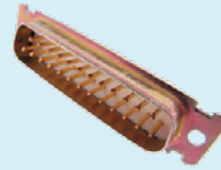

PEI-Genesis serves mission-critical markets and applications that support the aviation, oil & gas, military/aerospace, industrial, rail, and medical industries worldwide.
